Notice of Permit Required

Permits shall be acquired when engaging in the following types of work:

Detached accessory structures used primarily for storage over 120 SF or more than 30" above adjacent grade.

Plumbing that involves reconstruction or movement of sewer, water, or gas lines within the interior of a structure.

Electrical work that involves modification to the existing system; examples are: installing a disconnect, upgrading the interior panel box, adding a generator, rewiring existing structure involving 1 room or more, or replacing service feeders. Changing outlets and switches in a room does not require a permit.

Mechanical work that involves moving or changing gas line or substantial increase in the size of a furnace or air conditioner.

Removal of drywall in an entire room or rooms of a residence where utilities are in the wall cavity. Example: complete bathroom remodel, gutting all existing fixtures and replacing.

Replacing windows/doors in a residence: When the existing window/door opening is being changed in size.

Structural repairs or modifications: The modification, repair, or removal of any structural or load bearing wall or opening within a structure.
